

Foyer Stage Technical Specification

Stage Dimensions:

The stage is a quarter-circle with a radius of 3.6m. Stage height is 0.62m, there are steps at each side to floor level. There is a handrail on the two back sides of the stage.

Piano:

Our upright piano is normally available, tuning can be arranged.

Sound:

Soundcraft EPM12 mixing desk (12 preamps plus two stereo channels)

2x Yamaha P3500 amplifiers

Behringer Ultragraph Pro graphic EQ unit

Lexicon MX200 FX unit

2x Tannoy V12 speakers for main PA

2x Tannoy V12 speakers for use as monitors (must be paired if the effects unit is in use due to aux limitations on desk)

5x SM58 microphones with stand and cable

2x DI boxes

8-way multi from mixing desk to stage

Cd player and minidisk provided, we also have cabling to connect a visitor's laptop or similar device.

Lighting:

The stage is lit by four 1kw parcans, these are not controllable during the performance.

Dressing Rooms and other facilities:

Dressing rooms are shared with events on the main stage. We endeavour to provide at least one, if you require more please check with the technical coordinator.

There are showers and toilets backstage.

The theatre green room has tea and coffee facilities.
